Medical and Eye Campus

The Mahvash and Jahangir Siddiqui Foundation (MJSF) Medical and Eye Camps program was initiated in response to the critical health care needs of the rural population who are deprived of basic health services due to non-availability and access issues. The program is being implemented by a dedicated health team comprising of doctors, eye surgeons, paramedics and volunteers.

These camps attract patients from and around the respective camp locations and are announced publically through newspaper ads, pamphlets, hand-bills distribution, electronic media and megaphones. As of October 2016, over 80,000 patients have been examined in these camps and over 17,000 cataract surgeries have been performed. And more recently, patients have started being screened for Hepatitis B and C.
